

## Acquisition of Andreas Hofer Hochdrucktechnik GmbH

NEUMAN & ESSER GROUP and Andreas Hofer Hochdrucktechnik GmbH have worked successfully together since 1995 as part of a sales cooperation. Both family businesses combine the technical leadership in their respective markets and the manufacture of specific equipment for customers in niche markets.

In view of this, the shareholders of Andreas Hofer Hochdrucktechnik GmbH have decided to sell their business with effect from 5 November 2015 to the NEUMAN & ESSER GROUP together with all rights and obligations.

For the NEUMAN & ESSER GROUP the purchase of Andreas Hofer Hochdrucktechnik GmbH, their products and their know-how of diaphragm compressors, high pressure piston compressors and fittings, provide an addition and an extension to their own product portfolio of cutting edge technology that is 'Made in Germany'.

Consequently, the NEA GROUP can offer a complete high quality product range from low pressure to 5,000 bar from one supplier. This comprises all activities in the areas of design and manufacture of diaphragm and piston compressors, as well as fittings, OEM spare parts, service and maintenance, upgrading and modernisation of existing equipment of the 'Hofer' brand.

Andreas Hofer Hochdrucktechnik GmbH will also continue to exist as a family business after the sale to the NEA GROUP and will carry out the previous activities of supplying new equipment, spare parts and service for compressors of these models, of the quality and on-time delivery that have been the hallmark of the company for several decades.
